## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 29, 2007 has been entered.

### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 4-6 and 16-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 4 and 6 recite "machine readable storage or transmission medium containing code that ...". The inclusion of "transmission medium" renders these claims non-statutory. Since the specification does not limit the use of the term to a statutory embodiment, it must be given broadest reasonable interpretation, which includes such non-statutory embodiments as electromagnetic waves, the atmosphere, space, etc. Claims 5-6 and 17-20 incorporate these limitations by dependency and are rejected for the same reason.

### ***Allowable Subject Matter***

4. Claims 1-3 and 7-15 are allowed.
